

Summary

Front-end web developer with a background in scientific data analytics and scientific coding programs as an Earth Science graduate from UC Santa Cruz. Recently certified through UC Berkeley's Full-Stack Web Development program, employing my scientific program experience with MATLAB, Python, ArcGIS to become adept at web programs such as JavaScript, Node.js, React.js, etc. Successfully developed an interactive, responsive, and visually attractive web page for a business's primary customer hub as a freelance web developer. Striving to create visually superb and enjoyably interactive web pages that are unique, memorable, and dependable.

Projects

QualiTrees [Link](#) *Corporate Website*

- ❖ Freelance solo project built with React for a start-up business to display products, information about the business, ways to contact, and frequently asked questions.
- ❖ Notable features include:
 - Design that is aesthetic and complementary to the client's brand
 - Infinite and forward animations
 - Mobile responsiveness

Garage Collage [Link](#) *E-commerce Website*

- ❖ Held full responsibility for the front end of a group project of three people. Built and created with React and styled using Styled Components, a fully functional garage sale e-commerce website and was completed within two weeks.
- ❖ Notable features include:
 - Complex and intriguing animations
 - Seamless patterns used to create unique backgrounds
 - Mobile responsiveness

Work Experience

Community Integration Assistant (Jan. 2020 – Present) *Ability Now Bay Area | Oakland, CA*

- ❖ Educate and empower adults with disabilities and their families through advocacy, wellness, and building independence over online classes from the safety of their homes.

Staff Engineer (July 2019 – Nov. 2019) *Berlogar Stevens & Associates | Pleasanton, CA*

- ❖ Support Project Managers with tasks associated with subsurface exploration including laboratory testing, construction monitoring and testing services during mass grading, foundation preparation, pile installation, and tieback installation.

Geotechnical Engineering Technician (Sept. 2018 – June 2019) *Cornerstone Earth Group Inc. | Sunnyvale, CA*

- ❖ Conduct geotechnical site observations of earthwork, utility backfill, drainage improvements, excavations, and foundation construction.

Education

Full-Stack Web Development Certification 2020 *University of California, Berkeley*

Earth Science, Bachelor of Science (2014 – 2018) *University of California, Santa Cruz*
